(BROWN) QUANTUM LONG TERM EQUITY FUND

(An Open-ended Equity Scheme)

Investment Objective

The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the S&P BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.

Asset Allocation Pattern of the schem

		Minimum allocation		
	(% of Net Assets)	(% of Net Assets)	(% of Net Assets)	Profile
Listed Equity & Equity Related Securities of Companies	95% to 99%	65%	99%	High
Unlisted Equity & Equity Related Securities of Companies	0% to 3%	0%	5%	High
Money Market instruments	1% to 5%	1%	35%	Low
Liquid Schemes of Mutual Funds	0% to 5%	0%	5%	Low

The Scheme may seek investment opportunity in the ADR/GDR and Foreign Securities (maximum 10% of Net Assets) subject to SEBI (Mutual Funds) Regulations, 1996. The Scheme may use derivatives for the purpose of hedging and portfolio balancing (max. 5% of Net Assets) based on the opportunities available subject to SEBI (Mutual Funds) Regulations, 1996.

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations.

Investment Strategy

The investment strategy of the Scheme will be to invest in a basket of stocks after using intensive fundamental analysis, both quantitative and qualitative, monitor the portfolio actively but not so as to engage in excessive trading, and control risk by keeping the portfolio adequately diversified (both in terms of the sectors included in the portfolio as well as with respect to the level of concentration of any particular investment).

The primary focus of the Scheme will be on companies that will typically be included in the S&P BSE 200 Index. Valuations will be developed based on the business of the company, the environment in which it operates, the skills and resources of its management, the strength of its balance sheet and cash flow relative to its long term goals, and other fundamental sector criteria. Investments will be made in companies whose shares are undervalued when compared to long term valuation expectations. Investments will be oblight will be sold when the Investment Manager believes the market price of the strength of its balance sheet and cash flow relative to its compared to long term valuation expectations. Investments will be down and envestment Manager believes the market price of the shares has exceeded its assessment of the long term value of that company, or if there are adverse changes to that company's management, prospects or the markets in which that company operates. This evaluation against market prices will tend to be based on fundamental criteria (dividend yields, price to earnings, price to cash flow, price to book value, and other different measures of share price ratios), relative to a company's peer group, its history and the overall equity markets. **Bisk Profile of the Scheme**.

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Document carefully for details on risk factors and other details before investment. Scheme specific Risk Factors are summarized below:

- (a) Risk associated with investment in Equity and Equity related Securities. Tradina Volumes. Settlement Periods.
- (b) Risks associated with Derivatives or Stock Lending
- (c) Investments in mutual fund units involve investment risk such as trading volumes, settlement risk, liquidity risk & default risk. Trading volume may restrict liquidity in equity & debt investments. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency and exchange rates, change in law/ policies of the government, taxation laws and political, economic or other developments.
- (d) Investment in debt and money market instruments are subject to risk, audit risk, spread risk, re-investment risk, basis risk, audit risk, spread risk, prepayment risk etc. to the extent of the Scheme's investments in such securities.

Risk Management Strategies

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations, 1996.

The Fund has identified following Risk and designed Risk Management Strategies which is the part of the Investment Process to manage such risks.

Type of Risks	Risk Mitigation / Management Strategies
Quality risk: Risk of investing in unsustainable/weak companies	Investment universe is selected carefully, based on the quality of business, management capabilities, nature of industry, history of the company, promoter background etc. and also meet regularly companies official to update the information about the companies.
Price risk: Risk for overpaying for a company	A number of valuation tools are applied to judge the fair value of the companies and investment is made only if there is good upside in the stock price. For deciding the valuation of the companies various tools is considered such as history of the companies, peers over 5- 10 year periods, quantitative analysis.
Concentration risk	The investments are made in stocks across a number of sectors to ensure the diversification. Generally there is stock wise limit is that no investment is made more than 6% of portfolio.
Liquidity risk: High impact cost	The Investments are made only in such stocks which has high trading volume in the market.
Volatility risk: price volatility due to company or portfolio specific factors	For hedging the portfolio generally cash is used and when the stocks/markets go up sharply above the comfort level at that time stock has been sold and cash has been retained to invest for further good opportunity.
Event risk: Price risk due to company or sector specific events	Regular meetings with the companies and internal meetings of portfolio team helps to identify and resolve the Event Risk.

Plans and Options

Options:

The Scheme offers two Options:

(i) Growth Option (ii)Dividend Option

The Dividend Option will in turn have two facilities namely; (a) Dividend Pay-Out Facility (b)Dividend Re-investment Facility

Dividend Po

The Trustee proposes to follow the following dividend distribution policy:

In terms of SEBI Circular No. 1/64057/06 dated April 4, 2006, the Trustees shall fix the quantum of dividend and the record date. The AMC shall, within one calendar day of the decision by the Trustee, issue notice to the public, communicating the decision, including the record date. The record date shall be 5 calendar days after the issue of notice and issued in accordance with the terms of the Circular. Declaration of dividend is subject to the availability of distributable surplus. It must be distinctly understood that the actual declaration of dividends under the Scheme and the frequency thereof will, inter-alia, depend upon the distributable surplus of the Scheme. There is no assurance or quarantee to Unitholders as to the rate of dividend distribution nor will that dividend be regularly paid. The dividend that may be paid out of the net surplus of the Scheme will be paid only to those Unitholders whose names appear in the register of Unitholders on the notified record date. Unitholders are entitled to receive dividend within 30 days of the date of declaration of the dividend. However, the Mutual Fund will endeavour to make dividend payments sooner to Unitholders. On distribution of dividend, the NAV will stand reduced by the amount of dividend distributed and statutory levy, if any, at the close of business hours on record date of the Fund Mc

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations Investment Strat

The primary investment objective of the Scheme is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments

The fund management team would endeavor to maintain consistent performance in the Scheme by balancing yields and safety as well as maintaining high liquidity.

Various risks carried by debt investments such as Interest Rate Risk, Liquidity Risk, Default Risk, etc. cannot be eliminated, but can be minimized by diversification and hedging.

The fund management team has a Dynamic Model in place to balance and minimize the various risks in the debt markets.

The fund management team would actively track the local interest rate markets as well as the developments in global markets and accordingly rebalance the portfolio of the Scheme.

The investment objective would be achieved in the following order of priority:

- Legality & compliance Ensuring that the portfolio is at all times completely compliant with all rules and regulations internal and external.
- Portfolio Liquidity Ensuring that the Portfolio can be liquidated at minimal impact cost to the investors.
- Capital Preservation Ensuring that the investments are made in a manner to minimize market risks and choosing securities which have low default/downgrade risk.
- Yield and Return Enhancement After meeting the above objectives, the rigorous and in-depth research and analysis of the macro economic situation and fixed income markets should provide for timely investment opportunities which enhance the total returns for an investor – on a risk adjusted basis.

The overall Investment strategy revolves around the process laid down to achieve the Investment Objectives as investors in a Liquid Fund seek optimal deployment of their surplus funds. Although the investment pattern for the scheme is for short term instruments, the research and analysis on the macro economy situation is carried out for short term as well as for a more structural and longer term horizon — so as to ensure that the portfolio investments are well positioned for all eventual and likely scenario.

Thus this dynamic combination of a rigorous top down macro economy and fixed income research and emphasis on Portfolio liquidity and capital preservation is expected to offer risk adjusted returns.

Risk Profile of the Scheme

Mutual Fund Units are subject to market risks. Please read the Scheme Information Document carefully for details on risk factors and other details before investment. Scheme specific Risk Factors are summarized below

- Risk associated with investments in Debt and Money Market Instruments which involve Interest rate risk, Liquidity & Settlement (a) Risk, Investment Risk, Credit Risk, Re-investment Risk etc.,
- Risk associated with investments in Derivatives which involve Credit Risk, Illiquidity Risk etc
- Risk associated with investments in Stock Lending consists of the failure to another party, to comply with the terms of agreement (c) entered into. There can be a loss in such a transaction if the price of the security goes up instead of falling down.
- Scheme may invest in domestic, securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS) which involves risks like Prepayment Risk, Market risk etc. (d)

Risk Mitigation Factors

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations.

The Fund has identified following Risk and designed Risk Management Strategies which is the part of the Investment Process to manage such risks

Type of Risks	Risk Mitigation / Management Strategies
Interest Rate Risk	Measured through Average Maturity Duration / Portfolio Sensitivity to interest rate changes (PV01). The investment is made only in shorter tenor instruments (< 91 days) and has low duration and is thus exposed to lower market risks.
Credit and Default Risk	Measured through Portfolio credit quality. The Scheme is mandated to invest a minimum of up to 80% in instruments with the highest credit rating as given by a SEBI registered credit rating agency which helps maintain good portfolio quality.
Liquidity Risk	Measured through Trading Data / Portfolio Liquidity Report. The Scheme caps the illiquid assets as a % of portfolio to ensure that the fund remains liquid to meet redemptions.
Mismatch Risk / ALM (Asset Liability mismatch) Risk (Investor horizon and asset maturity mismatch)	Measured through ALM Report. The Fund has a well laid down ALM policy which ensures that the portfolio maturity is aligned to investor horizon. The scheme assumes certain amount of redemptions on a regular basis and thus plans its asset purchases based on this estimate ensuring smooth redemptions with limited market risks.

(An Open ended Equity Linked Savings Scheme

estment Obje

The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the S&P BSE 200 index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.

Asset Allocation Pattern of th Normal allocation (% of Net Assets) Types of Instruments Minimum allocation Maximum allocation Risk Profile (% of Net Assets) (% of Net Assets) Equity and equity-related Securities* 80% 100% High Debt and money market instruments 0% 20% Low to Medium

In accordance with the ELSS, investments by the Scheme in equity and equity related Securities will not fall below 80% of the net assets of the Scheme.

⁶ Equity telated Securities shall mean all those instruments which are permitted as per the ELSS Guidelines from time to time and shall include equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in parily convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as for a spossible, the non-convertible portion of the debentures os acquired or subscribed, shall be disinvested within a period of 12 (twelve) months.

The Scheme does not intend to make any investments in derivatives, and ADR/GDRs/foreign Securities. However, the Scheme may make investments in derivatives, ADR/GDRs/foreign Securities as and when permitted by the ELSS. The scheme shall not invest in Foreign Securitized Debt.

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations

The investment strategy of the Scheme will be to invest in a basket of stocks after using intensive fundamental analysis, both quantitative and qualitative, monitor the portfolio actively but not so as to engage in excessive trading, and control risk by keeping the portfolio adequately diversified (both in terms of the sectors included in the portfolio as well as with respect to the level of concentration of any particular investment).

The primary focus of the Scheme will be on companies which will typically be included in the BSE 200 Index. Valuations will be developed based on the business of the company, the environment in which if operates, the skills and resources of its management, the strength of its balance sheet and cash flow relative to its long term goals, and other fundamental sector criteria. Investments will be made in companies whose shares are undervalued when compared to long term valuation expectations. Investments will be sold when The investment Manager believes the market price of the shares has exceeded its assessment of the long term value of that company, or if there are adverse changes to that company's management, prospects or the markets in which that company operates. This evaluation against market prices will tend to be based on fundamental criteria (dividend yields, price to earnings, price to cash flow, price to book value, and other different measures of share price ratios), relative to a company's peer group, its history and the overall equity markets. **Risk Profile of the Sche**

QUANTUM EQUITY FUND OF FUNDS (An Open-ended Equity Fund of Funds Scheme)

Investment Objective

The investment objective of the scheme is to generate long-term capital appreciation by investing in a portfolio of open-ended diversified equity schemes of mutual funds registered with SEBI. There can be no assurance of positive returns from following the stated investment strategy.

Asset Allocation Patte n of the schen Normal allocation (% of Net Assets) Types of Instruments

iypes of mistroments	Normal anocation (70 of Net Assets)				
	Minimum allocation (% of Net Assets)	Maximum allocation (% of Net Assets)	Risk Profile

Money Market Instruments	0%	10%	Low to medium		
	المؤجر بالمعالية والمتعادين المتعاد المعار	to a set fit and a second second second second	1		

The scheme will only invest in third party mutual funds. The fund shall invest in a mix of diversified equity schemes, mid cap/ small cap/ larae cap oriented schemes.

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations Investment Strategy

The investment strategy of the Scheme will be to invest predominantly in open-ended diversified equity schemes of Mutual Funds, which are registered with SEBI after using intensive fundamental analysis both quantitative and qualitative, monitor the portfolio regularly but not so as to engage in excessive churning, and control risk by keeping portfolio adequately diversified.

The Scheme will invest a majority of its money in open-ended diversified equity schemes that have been in existence for at least 3 years at the time of making investments. The Scheme will not invest in any sector/thematic funds. Besides, it will not make any investments in the schemes of Quantum Mutual Fund. Furthermore, the schemes that get short-listed will be tested across the quantitative and qualitative parameters, set as a part of our fund selection process.

Risk Profile of the Schem

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

- 1. The scheme proposes to invest predominantly in the diversified equity schemes of Mutual Funds, registered with SEBI. Hence the scheme's performance will depend upon the performance of the underlying schemes. Any change in the investment policies or the fundamental attributes of the underlying schemes may affect the performance of the scheme.
- Investments in underlying equity schemes will have all the risks associated with such schemes including performance of 2. underlying stocks, derivative investments, off shore investments, stock lending, etc.
- The changes in asset allocation may result in higher transaction costs. 3
- 4. Since the Scheme proposes to invest at least in 5 underlying schemes, the significant underperformance in even one of the underlying schemes may adversely affect the performance of the Scheme

nt Strategie

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations.

The Fund has identified following Risk and designed Risk Management Strategies which is the part of the Investment Process to manage such risks.

Type of Risks	Risk Mitigation / Management Strategies
Scheme Selection Risk — Risk of investing in a poor performing scheme	The Fund has laid down the criteria for quantitative and qualitative ranking for selection of the schemes which pick up schemes with consistent long-term performance with an emphasis on sound research and investment process. The criteria have been followed by meeting the fund managers of the schemes to ascertain deviation from the strategy. The rebalancing of weightage is also made if necessary. The performances of the schemes have been reviewed every six months.
Portfolio concentration Risk	The Fund has laid down the policy in case of portfolio holdings which has criteria for investments into the schemes, limits on the per scheme investments, per mutual fund house and schemes managed by the fund managers. The Fund also calculate the stock and sector concentration based on the weighted stock holdings of the scheme invested and also take corrective action by rebalancing if necessary.

Plans and Options

Options:

The Scheme offers two Options: (ii)Dividend Option Growth Option

The Dividend option in turn will have two facilities namely;

(b)Dividend Re-investment Facility Dividend Payout Facility

Plans: Presently the scheme does not offer any Plan.

The Trustee reserve the right to introduce / modify investment Plans / Options under the Scheme at a future date in accordance with SEBI (MF) Regulations.

Separate Plan For Direct Investment

In accordance with the SEBI Circular No. Cir / IMD / DF/21/2012 dated September 13, 2012, the Mutual Fund/AMC shall provide a separate plan for direct investment i.e. investments not routed through a distributor and such separate expense plan shall have lower expense ratio excluding distribution expenses, commission etc., and no commission shall be paid from such plans and the plan shall also have a separate NAV.

Investors are requested to note that Quantum Mutual Fund is a direct to investors Mutual Fund and does not charge / debit any distribution expenses to the schemes and does not pay any upfront or trail commission to distributors for investment routed through distributor whether empanelled with Quant6um Mutual Fund or not since its inception. Further, Quantum Mutual Fund does not deduct Transaction Charges as allowed under SEBI Circular No. Cir/IMD/DF/13/2011 dated August 22, 2011.

Quantum Mutual Fund shall continue not charging / debiting any distribution expenses to the schemes and does not pay any upfront or trail commission to distributors for investment routed through distributor whether empanelled with Quantum Mutual Fund or not. Therefore, the Scheme shall not have a Separate Plan for receiving any investment applications either through distributors or directly

from investors, and shall not declare separate NAV for application either through distributors or directly from investors for the Scheme

Option to hold units in demateralised mode

The unit holders are given an option to hold the units in physical mode or in dematerialized mode. The Investor intending to hold the units in dematerialized mode will be required to have a beneficiary account with a Depository Participant and will be required to mention the DP's Name, DP ID No. and Beneficiary Account No. with the DP in the application form at the time of subscription / additional purchase of the units of the Scheme.

It may be noted that in case of option to hold units in dematerialized mode under Systematic Investment Plan (SIP), the units will be credited to Investor's demat account on weekly basis on every Monday subject to realization of funds in the last week. For eg. Units will be credited to investor's demat account on following Monday for realization status of funds received in the last week from Monday to Friday

(BROWN) High Risk QUANTUM GOLD SAVINGS FUND (An Open Ended Fund of Fund Scheme

Investment Objective

The investment objective of the scheme is to provide capital appreciation by predominantly investing in units of Quantum Gold Fund Exchange Traded Fund.

The performance of Scheme may differ from that of Quantum Gold Fund and the domestic prices of gold due to expenses and certain other factors. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

Asset Allocation Pattern of the scheme									
Types of Instruments	Normal Allocation	(% of Net Assets)	Risk						
	Minimum (% of Net Assets)	Maximum (% of Net Assets)	Profile						
Units of Quantum Gold Fund	95%	100%*	Medium to High						
Money Market instruments, Short-term Corporate debt securities, CBLO and units of Debt and Liquid Schemes of Mutual Funds	0%	5%	Low						

* As the scheme invests 95% to 100% of the net assets into the units of Quantum Gold Fund, the scheme will, by and large, be passively monoged Scheme.

It may be clearly understood that the percentages above are only indicative and not absolute.

The Scheme would invest in money market instruments, short-term corporate debt securities, CBLO and units of debt and liquid schemes of mutual funds, in order to meet the liquidity requirements of the Scheme.

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations.

Investment Strategy / Philosophy

The AMC uses 'passive' approach to try and achieve the Scheme's investment objective. The Scheme would predominantly invest in the units of Quantum Gold Fund. The AMC does not make any judgments about the investment merit of a Quantum Gold Fund nor will it attempt to apply any economic, financial or market analysis. Passive approach eliminates active management risks in regards to over / underperformance vis-à-vis the benchmark.

The Scheme would endeavor to stay invested in the underlying practically to the maximum extent possible at all times. However, the Scheme would also maintain some funds for meeting expenses and redemption purposes, in order to meet the liquidity requirements of the Scheme as prescribed in the Asset Allocation.

Quantum Gold Fund which is the underlying investment of this Scheme endeavors to track domestic prices of gold by investments in

physical gold. It is also a passively managed scheme. On an average the Quantum Gold Fund has been 99.98% invested in gold since its inception in February 2008. This track record in terms of the investment allocation to physical gold evidences the extent to which the fund attempts to track the underlying.

Tracking error means the variance between returns of the underlying benchmark (gold ETF units in this case) and the NAV of the Scheme for any given period

Tracking From means the extent to which the NAV of the Scheme moves in a manner inconsistent with the movements of the benchmark on any given day or over any given period of time due to any cause or reason whatsoever including but not limited to expenditure incurred by the scheme, dividend payouts if any, whole cash not invested at all times as it may keep a portion of funds in cash to meet redemption etc. Tracking error quantifies how closely a managers return pattern follows that of a benchmark index, and is defined as the standard deviation of the funds excess return over the underlying / benchmark index return.

Given the structure of Quantum Gold Fund, the AMC expects the tracking error to be lower. The AMC will endeavor to keep the tracking orem is not set of the under normal circumstances, such tracking error (with respect to the underlying i.e. Quantum Gold Fund) are not expected to exceed 2% per annum. However this may vary when the markets are very volatile and also when the inflows/ outflows in the fund are too excessive.

Rebalancing

The deviation from the underlying ETF as specified above shall mainly be on account of the receipt of cash flows which on an average takes 5 days given the existing operational procedures.

The table shows below the impact that could happen on the Scheme performance as a result of delay in receipt of money over previous six months ending on May 31, 2014.

% change in prices between 'n' days	2 Days	3 Days	4 Days	5 Days	6 Days	7 Days
Average	0.0%	-0.1%	-0.1%	-0.1%	0.0%	-0.1%
Max	3.0%	3.4%	3.4%	3.8%	4.6%	4.5%
Min	-2.4%	-3.1%	-4.2%	-4.2%	-4.9%	-5.7%

The Scheme would endeavor to maintain the indicated asset allocation. However there could be a variance in the asset allocation on account of receipt of cash flows as mentioned above, which on an average takes 5 business days to clear given the existing operational procedure

Investment Process

The Scheme will endeavor to track the domestic prices of gold by investing in units of Quantum Gold Fund (ETF).

The investments could be made either directly with the underlying fund or through the secondary market.

The AMC will analyze from time to time different ways of taking exposure to units of Quantum Gold Fund from the perspective of risk and return and decide the same in the best interest of investors.

(a) Managing the fund flows:

(i) In case of Subscription

The asset allocation pattern mandates 95-100% allocation to the underlying units of Quantum Gold Fund. New subscriptions received would be deployed immediately in the underlying units such that the new funds received get deployed to the minimum level of the indicated asset allocation in not more than 7 days.

The following would be indicative timelines from the day of receipt of application and the deployment of the same in the underlying units of Quantum Gold Fund..

T day — Receipt of Application

T+1-T+5 days - Availability of clear funds for deployment

T+3-T+7 days – Deployment of funds either buying the units of Quantum Gold Fund on the exchange or by transacting directly with the Quantum Gold Fund through in kind creation process.

(ii) In case of Redemptions

During Redemptions, there are two ways to generate cash flows to meet redemptions. The Scheme can sell the underlying units on the exchange or can surrender the underlying units directly to Quantum Gold Fund and receive gold which in turn can be sold to generate cash

(a) Selling underlying units on the exchange:

T day - receipt of redemption request

T - T + 2 days — Underlying units would be sold on the exchange

T+2-T+4 days-Receipt of cash on account of sale following the normal T+2 settlement cycle

T+3-T+7 days-investor receives the redemption proceeds

(b) Transacting directly with the Quantum Gold Fund:

T day — receipt of redemption request

T+1 day-Redemption request would be made to the underlying fund

T+2 days-Receipt of gold on account of redemption in the underlying gold ETF

T+2-T+5 days-sale of gold and receipt of cash proceeds

T+3-T+7 days - investor receives the redemption proceeds

As mentioned above, there is a time lag involved between the allotment of NAV based on receipt of transaction request and actual deployment of funds on account of the various procedures involved and time for clearance of funds through the banking channel. This would have an impact on the NAV and result in the tracking error on account of changes in price.

When the Scheme receives new subscriptions and the price of the underlying gold ETF increases due to increase in gold prices, the Scheme would be able to buy less units of the underlying fund then it should ideally do. This would lead to a negative tracking error to the extent of price movement

When the Scheme receives new subscriptions and the price of the underlying gold ETF decreases due to decrease in gold prices, the Scheme would be able to buy more units of the underlying then it should ideally do. This would lead to a positive tracking error to the extent of price movement.

When the Scheme receives redemptions and the price of the underlying gold ETF increases due to increase in gold prices, the Scheme would have to sell less units of the underlying to raise cash for redemption payments. This would lead to a positive tracking error to the extent of price movement.

When the Scheme receives redemptions and the price of the underlying gold ETF decreases due to decrease in gold prices, the Scheme would have to sell more units of the underlying to raise cash for redemption payments. This would lead to a negative tracking error to the extent of price movement.

There is an equal probability of both the outcomes of having a positive or negative tracking error. It could be likely that such alternate outcomes would even out overtime resulting in a neutral effect over the long term as discussed, despite the attempt to closely track the underlying, a tracking error may result due to conditions that are beyond the control of the fund managers

- The Scheme would buy the underlying units on the exchange platform. The price at which the Scheme buys underlying (a) units and it's NAV (based on London AM fix and RBI reference rate) are likely to be different thereby causina deviation and creatina trackina error
- (b) The underlying units bought will incur a brokerage cost which would again lead to deviation in the Scheme and the underlving NAVs.

Tracking error would also arise on account of time lag between allotment of NAV to the investor and availability of actual funds for deployment as explained in above para. On account of this time lag, the procurement price of the underlying units would be different than the NAV at which allotment is made leading to tracking errors.

Profile of the Schen

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

The Scheme will invest predominantly in units of Quantum Gold Fund (QGF), a mutual fund scheme in the form of Exchange Traded Fund. The Scheme's performance may depend upon the performance of QGF. Any change in the investment policy or the fundamental attributes of QGF could affect the performance of the Scheme. All risks associated with underlying scheme, including performance of their underlying physical gold, asset class risk, passive investment risk, indirect taxation risk, etc., will therefore be applicable in this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have

understood the risk factors of the underlying scheme.

- The Scheme's NAV will react to the Gold price movements and movements in the NAV of Quantum Gold Fund. The factor that may affect the price of Gold, among other things include demand and supply for gold in India and in the global market, Indian and foreign exchange rates, inflation trends, trading in gold as commodity, legal restriction on movement / trade of gold that may be imposed by RBĬ, Government of India or countries that supply or purchase gold to / from India, trends and restrictions on export / import of gold in and out of India, etc.
- The portfolio disclosure of the scheme will be limited to providing the particulars of the Quantum Gold Fund where the scheme has invested and will not include the investments made by Quantum Gold Fund. However, as the scheme proposes to invest only in underlying scheme, the underlying assets will by and large be physical gold.
- The investors of the scheme will bear dual loads i.e. those of the scheme and those of Quantum Gold Fund. Hence, the investor under the scheme may receive lower pre-tax returns than what they could have received if they had invested directly in underlying scheme in the same proportions.
- Although the units of Quantum Gold Fund are listed on the stock exchange, there can be no assurance that an active secondary market for Quantum Gold Fund will develop or be maintained.
- Trading in units of Quantum Gold Fund on the stock exchanges may be halted because of market conditions or for reasons that in view of stock exchange authorities or SEBI, trading in the units of Quantum Gold Fund is not advisable. In addition, trading of units of Quantum Gold Fund is subject to trading halts caused by extraordinary market volatility and pursuant to circuit filter rules of the stock exchanges and SEBI. There can be no assurance that the requirements of stock exchanges necessary to maintain the listing of the stock exchanges and SEBI. There can be no assurance that the requirements of stock exchanges necessary to maintain the listing of the stock exchanges and SEBI. - The units of Quantum Gold Fund may trade above or below their NAV. The NAV of Quantum Gold Fund will fluctuate with chanaes In the market value of its holdings. The trading prices of the units of Quantum Gold Fund will fluctuate in accordance with changes in its NAV as well as market supply and demand for the units of Quantum Gold Fund. However, given that units of Quantum Gold Fund can be created and redeemed in Creation Units Size directly with Fund, it is expected that large discounts or premiums to the NAV of Quantum Gold Fund will not sustain due to arbitrage opportunity available.
- Any changes in trading regulations by the stock exchanges or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV of Quantum Gold Fund. Management Strategies

Risk is an important part of the investment functions. Effective Risk Management is artical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations, 1996

Type of Risks	Risk mitigation / Management Strategies
Risk of deviating away from the investment objective of	The approach adapted to managing the Scheme would be a passive investment approach. The Scheme endeavors to stay near fully invested at all times.
tracking gold prices through investments in units of Quantum Gold Fund (ETF)	Brokerage paid for buying units on the exchange may also lead to increase in deviation. To mitigate the same, the Scheme will analyze from time to time different ways of taking exposure to units of Quantum Gold Fund from the perspective of risk and return and decide the same in the bese interest of investors. For e.g. : Investing directly with the fund by purchasing and delivering physical gold to create / purchase new units whenever possible will help to avoid payment of any brokerage charges.
	However, the bid ask spreads in the underlying units and time lag for availability of fund fo deployment may lead to small deviations.
Price risk	Buying / selling on the exchange:
	On account of the usual bid-ask spread, the Scheme may pay / receive premium / discount while purchasing / selling the underlying units on the exchange.
	The fair value of the units of the Quantum Gold ETF would be calculated on a real time basis an orders would be placed near the real time fair value to avoid overpaying while purchases o receiving less while selling other than a reasonable bid ask spread.
	Buying / selling directly through the Quantum Gold Fund: There is price risk involved
	when buying physical gold for purchase of units on account of the possibility of the difference between the purchase price of gold and the gold price computed by the underlying fund for valuation purposes. The Scheme may choose to buy gold by placing the order to buy at London AA fixing price which is used for valuation for the underlying fund and thereby avoid price risk to a greater extent.
	In case of redeeming units directly with the fund, the fund would deliver gold on a T+1 basi: which causes time lag and also the same would have to be sold on the open market which can be a a premium/discount. However, the Scheme would usually sell the units on the exchange.
iquidity risk	It is found that sufficient liquidity is provided by the authorized participants of Quantum Gold Fund
	In case of liquidity issues, the fund can opt for the alternative way of buying / selling units in exchange of the underlying. The underlying can then be bought/ sold in order to deploy funds or to raise cash for redemations.

The Scheme offers only one option - Growth Option.

Plans: Presently the scheme does not offer any Plan. The Trustee reserve the right to introduce / modify investment Plans / Options under the Scheme at a future date in accordance with SEBI (MF) Regulations.

Separate Plan For Direct Invest

In accordance with the SEBI Circular No. Cir / IMD / DF/21/2012 dated September 13, 2012, the Mutual Fund/AMC shall provide c separate plan for direct investment i.e. investments not routed through a distributor and such separate expense plan shall have lowe expense ratio excluding distribution expenses, commission etc., and no commission shall be paid from such plans and the plan shall also have a separate NAV.

Investors are requested to note that Quantum Mutual Fund is a direct to investor's Mutual Fund and does not charge / debit any distribution expenses to the schemes and does not pay any upfront or trail commission to distributors for investment routed through distributor whether empanelled with Quantum Mutual Fund or not since its inception. Further, Quantum Mutual Fund does not deduct Transaction Charges as allowed under SEBI Circular No. Cir / IMD / DF/13/2011 dated August 22, 2011.

Quantum Mutual Fund shall continue not charging / debiting any distribution expenses to the schemes and does not pay any upfront or trail commission to distributors for investment routed through distributor whether empanelled with Quantum Mutual Fund or not.

Therefore, the Scheme shall not have a Separate Plan for receiving any investment applications either through distributors or directly from investors, and shall not declare separate NAV for application either through distributors or directly from investors for the Scheme. Option to hold units in Dematerialized Mode

The unit holders are given an option to hold the units in physical mode or in dematerialized mode

Quantum Multi Asset Fund

(YELLOW) Medium risk (An Open Ended Fund of Funds Sche

nt Obje

The investment objective of the Scheme is to generate modest capital appreciation while trying to reduce risk (by diversifying risks across asset classes) from a combined portfolio of equity, debt / money markets and Gold schemes of Quantum Mutual Fund.

The Scheme may invest in the units of debt/money market schemes of other mutual funds to gain exposure to debt as an asset class to manage any investment and regulatory constraints that arise/that prevent the Scheme from increasing investments in the schemes of Quantum Mutual Fund.

There can be no assurance that the investment objective of the Scheme will be realized.

Asset Allocation Pattern of the scheme			
Types of Instruments		1 (% of Net Assets) Maximum (% of Net Assets)	Risk Profile
Units of Equity Schemes	25	65	Medium to High
Units of Debt / Money Market Schemes	25	65	Low to Medium
Units of Gold Scheme	10	20	Medium
Money Market instruments, Short-term Corporate debt securities, CBLO	0	10	Low

The Scheme will predominantly invest in the units of Equity, Debt/ Money Markets and Gold schemes of Quantum Mutual Fund. Units of any other Equity and Debt schemes launched by Quantum Mutual Fund from time to time would be eligible to be part of the above asset allocation.

Currently, the Scheme is not allowed to invest in the units of Fund of Funds Scheme as per the SEBI Regulations. The Scheme will invest in the units of the Fund of Funds Schemes of Quantum Mutual Fund as and when permitted under the SEBI Regulations.

The Scheme will invest in money market instruments, Short term corporate debt securities, CBLO, Repo / Reverse Repo in government securities and treasury bills only as per the prevailing regulations from time to time, only for the purpose of liquidity requirements.

The Scheme may invest in the units of debt/money market schemes of other mutual funds to gain exposure to debt as an asset class to manage any investment and regulatory constraints that arise/that prevent the Scheme from increasing investment. The portfolio is reviewed periodically to address any deviations from the aforementioned allocations due to market changes

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations.

Portfolio allocation between the units of equity, debt/ money markets and gold schemes broadly depends on the relative valuations between the asset classes. Relative valuations are determined by evaluation of various influencing factors. Some of the factors that would be reviewed thoroughly for determination of allocations across asset classes include:

- Price/Earnings Ratio relative to historical averages;
- The relationship between Earnings Yield to Bond Yield relative to historical averages;
- Macroeconomic factors prevailing globally, and within India.

The most well-known valuation parameter for equity is the Price-Earnings (P/E) ratio. The estimated earnings of a company are valued at varying multiples that result in a specific but constantly changing price. The P/E multiple is used to determine the current valuation of a stock. Typically, when the P/E ratio exceeds its historical or expected levels the stock moves to an overvalued price. As the P/E ratios of stocks increase over their historical or expected averages, the scheme will look to progressively reduce exposure to equities

The inverse of P/E ratio is earnings yield: it is the earnings per share of the company, divided by the price per share typically expressed as a percentage. This earnings yield can be compared to the bond yield for assessing the relative over or under-valuation of stocks with respect to bonds. Earnings yields on stocks should offer investors a premium over bond yields due to the relatively higher risk associated with investing in equity - ownership of bonds give defined coupon payments, while ownership of shares does not guarantee any payments. This is referred to as the equity risk premium. When the equity risk premium falls to levels below historical averages, equities become relatively more expensive over bonds. These relative yields between bonds and stocks will provide key input to the allocation between equity and debt/money market schemes.

In addition to these market related factors, the macro environment could influence the allocation decisions. The Portfolio Team will need to assess RBI monetary policy, various global and domestic lead/lag economic indicators, inflation trends, foreign central bank policies and evaluate their impact as the Portfolio Team determine the asset allocation between equity/debt/money markets/gold Schemes.

Risk Profile of the Sc

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below

- The scheme will invest predominantly in the schemes of Quantum Mutual Fund. Hence all the risk associated with the underlying 1. schemes, including performance of underlying of the underlying schemes, asset class risk, passive investment risk, indirect traxtion risk(applicable on gold investments — Increase / decrease in duties / taxes like (ustoms duty, Octroi charges, Vat, etc), etc., will therefore be applicable to this scheme. Any changes in the investment policy or the fundamental attributes of the underlying schemes could affect the performance of the Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying schemes.
- 2. The NAV's of the Scheme may be affected by the changes in the general market conditions, factors and forces affecting the capital markets in particular, level of interest rates, various market related factors and trading volumes, settlement periods and transfer procedures, currency exchange rates, changes in the government policies, taxation laws, any other policies, political and economic developments etc
- 3 Despite the fact that the underlying portfolio investments of the Scheme will typically be liquid, , in the event of receipt of an inordinately large number of redemption requests and inability of the Underlying Scheme(s) to generate enough liquidity because of market conditions, there may be delays in redemption of units.
- The liquidity of the Scheme's investments is inherently restricted by liquidity of Underlying Schemes. 4
- 5. Unitholders of the Scheme are not being offered any guarantee/assured returns
- 6. Changes in government policy in general and in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme
- 7. The investor of the Scheme shall bear the recurring expenses, transaction charges and loads if any of the Scheme in addition to the expenses, transaction charges & loads of the underlying schemes. Hence the investor under the scheme may receive lower pre-tax returns than that they could have received if they had invested directly in the underlying schemes in the same proportions.
- 8. The portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying schemes where the Scheme has invested and will not include the investments made by the underlying schemes.
- 9. The changes in asset allocation may result in higher transaction costs.

Risk M

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations, 1996.

The Fund has identified following Risk and designed Risk Management Strategies which is the part of the Investment Process to manage such risks

Type of Risks	Risk Mitigation / Risk Management Strategies
investments is inherently restricted by liquidity of Underlying Schemes. In the event of receipt of an inordinately large number of redemption requests and inability of the Underlying Scheme(s) to generate enough liquidity because of market	The Scheme seeks to invest in equity, debt / money markets and gold schemes of Quantum Mutual Fund. The underlying investments held by these schemes are highly liquid and therefore result in high liquidity of the underlying schemes. In the Quantum Long Term Equity Fund which has high liquidity criteria for stocks which make the underlying investments extremely liquid. Quantum Gold Fund invests in physical gold which is also an extremely liquid market. Quantum Index Fund invests in stocks comprising the Nifty 50 which are also highly liquid. Quantum Liquid Fund also invests in liquid short term debt instruments.
Price Risk: As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the various factors and forces offecting the capital markets and money markets. The NAV's of the Scheme(s) may be affected by the changes in the general market conditions, factors and forces affecting the capital markets in particular, level of interest rates, various market ledted factors and trading volumes, settlement periods and transfer procedures, currency exchange rates, changes in the government policies, taxation laws, any other policies, political and economic developments etc.	The Scheme seeks to lower risk by diversifying across asset classes' viz., Equity Debt / Money Markets and Gold. The low to negative correlation amongst the asset classes tends to lower the price risk. Also, periodical rebalancing helps to maintain the diversification and avoid over / under exposure to a particula asset class than optimally required.
Allocation Risk: The returns and risk of the Scheme depends on the right mix of allocation of funds across asset classes in an optimal way so as to maximize risk adjusted performance of the Scheme. The Scheme also needs to rebalance at regular intervals to maintain the optimal allocation.	 The Scheme would strategize its allocation based on relative valuation models and other macro economic factors influencing each asset class. Relative valuations are determined by evaluation of various influencing factors. Some of the factors that would be reviewed thoroughly for determination of allocations across asset classes include: Price/Earnings Ratio relative to historical averages The relationship between Earnings Yield to Bond Yield relative to historical averages Macroeconomic factors prevailing globally, and within India In addition to these market related factors, the macro environment coulc influence the allocation decisions. The Portfolio Team will need to assess RB monetary policy, various global and domestic lead/ lag economic indicators inflution trends, foreign central bank policies and evaluate their impact as the Portfolio Team determine the asset allocation between equity/ debt / money market / gold Schemes. After analyzing some or all the factors mentioned above, Investment Team determines the relative allocation bayeding would be regularly reviewed and necessary portfolio changes would be carried out based on the analysis suggested by

various influencing factors The portfolios will be critically reviewed on a periodic basis to assess the current portfolio allocations. Any decisions to change the prevailing allocations will be taken based on prevalent market conditions and the changing macro business environment.

- 6. The Facility is not offered to those categories that are other than individuals and to those willing to transact electronically either through a Power of Attorney in their favour or through online arrangement with any broker or Intermediary or by use of any third party website.

In a case, where, the mode of holding is 'Anyone' or 'Survivor' or 'Joint', any use shall be deemed to have been carried out jointly by all the joint Users. The joint Users agree and confirm that the every User has the full and absolute authority to act for and on behalf of all and each of the other joint Users in all matters relating to a Facility. Liability of all the joint Users shall be joint and several and shall be binding on each of the joint Users, their respective legal heirs, successors, executors and permitted assigns. The joint User(s) shall be deemed to have confirmed and ratified all the acts done by any other joint User(s) in relation to a Facility.

SUBSCRIPTION AND CHARGES

The subscription for a Facility is offered by Quantum AMC to the User at no cost. However, Quantum AMC reserves the right to levy and/or review such charges, fees, interests and costs wherever applicable at regular intervals and inform the User of the date from which such charges will be applicable, if any. The User may agree to pay such charges in order to continue using a Facility and / or Quantum AMC has the explicit authority from the Users to debit the Unit holding account of the Users to recover such charges. If the User fails at any time to pay the applicable subscription charges becoming due, Quantum AMC may, in its discretion and without prejudice to its other rights, deny such User who has not paid the applicable charges access to a Facility. Quantum AMC need not provide the Users with any advance notice in such circumstances.

LINKS TO OTHER SITES

Certain links, including hypertext links, in a Facility shall take the User outside the Facility. Links are provided for the Users convenience and inclusion of any link does not imply endorsement or approval by Quantum AMC of the linked site, its operator or its content. Quantum AMC is not responsible for the content of any third party which is outside a Facility.

TERMINATION

Quantum AMC may terminate access to a Facility for any User if he/she is in breach of any of these Terms and Conditions and in particular upon any failure by such User to pay his/her subscription charges, if any, in accordance with these Terms and Conditions.

SUSPENSION

Quantum AMC may temporarily suspend access to a Facility for the User if he/she fails to comply with the KYC norms, delay in making the payment for a Transaction, delay in receipt of documents/information etc from third party source, or fails to comply with any rules, regulations, procedures or formalities notified by SEBI or any other regulation authority with respect to a Transaction or commits breach of any of the Terms and Conditions.

EVENT OF DEATH

In the event of death of the User (or any of them), all the Units in the name of such deceased User shall stand transferred to the nominee of such deceased User and if there are more than one nominees, then the Units shall be transferred in equal proportions to each nominee.

TAXES

Quantum AMC has endeavored to make clear whether the prices for Units of a scheme and services available through a Facility include any relevant tax or duty or do not. Where in any case it is not clear, the User must take note that after he/she enters into any Transaction, he/she might be required to bear a liability to tax or duty imposed or which may be imposed in future by operation of law that is in addition to the price of the Units.

PAYMENT MODES

Online transfer from the User's Bank Account or credit through RTGS/NEFT/IMPS from the Users Bank A/C is the only acceptable method of payment for executing any Transaction on any Facility. The payment must be made in full and should be derived through legitimate sources and legally belonging to the user and not of any third party. Quantum AMC may introduce such other payment modes or method of payment like Debit Card, Mobile Wallet, Virtual Currency, etc. As and when such payment modes are introduced such payment modes shall also be acceptable method of payment for executing any transaction.

ISSUANCE OF UNITS

1. According to SEBI Guidelines under 'The Prevention of Money Laundering Act, 2002, Mutual Funds are required to follow enhanced Know Your Customer (KYC) norms. Accordingly, it will be mandatory for all categories of users to be KYC Compliant, irrespective of the amount of investment either through the central agency KYC Registration Agency ("KRA") or through the Aadhar UID. Users have to further ensure that the manner of name as verified in the application form matches with that on the PAN (as the same would be matched as per PMLA guidelines) Please refer to our website www.QuantumMF.com and AMFI website www.amfiindia.com for the KYC Compliance application form and POS's of the Central Agency KYC Registration Agency ("KRA") where the completed forms and the relevant documents are to be submitted. Applications for subscriptions without a valid KYC Compliance for the relevant category of users may be rejected.

Provided further, where it is not possible to verify the KYC Compliance status of the user at the time of allotment of units, Quantum AMC shall verify the KYC Compliance status of the user within a reasonable time after the allotment of units. In case during first time purchase the user's KYC verification/ Compliance is under process, subsequent purchase shall not be permitted till the user is KYC Compliant.

In the event of non compliance of KYC requirements, Quantum AMC reserves the right to freeze the folio of the user(s) for any kind of transactions or affect mandatory redemption of unit holdings of the users at the Applicable NAV, subject to payment of exit load, if any. Users, who have obtained MIN allotment letter by submitting the PAN copy, are deemed to be KYC Compliant. Users should note that on completion of KYC Compliance all details of the user in the Mutual Fund records will be replaced by the details as given in KYC Application Form by the user to the KRA. Any change in this details like change of Name / Address /Status /Signature, etc. should be given by user directly to KRA (POS) in the prescribed Change request form quoting the KYC acknowledgement number / PAN number. Quantum AMC reserves the right to call for any additional information from the users/applicant/reject applications/subsequent application in order to fulfill the requirements of PMLA norms prescribed by SEBI/PMLA Regulations from time to time.

- Quantum AMC shall issue Units to a User only when the User makes payment for the amount of Transaction executed by such User. If, however, a payment has not been made Quantum AMC shall not issue any Units to the User and the Transaction will be recorded as cancelled.
- 3. Users who have applied for allotment of units in their Demat Account will be issued units in demat form. Those users whose KYC status is invalid/not complete would be issued units in their Demat Accounts only. Users have to ensure that the sequence of names as mentioned in the application form matches with that of the account held with the Depository Participant. If the details mentioned in the application are incomplete/incorrect, not matching with the Depository data, then Units will be issued in Physical mode and Statement of Account will be issued to the Unit holder or the allotment would be rejected.

Investors have to ensure that the Bank account through which the investment is being done matches with the bank account details in the demat account, otherwise the application is liable to be rejected. In case of holding in demat account, the bank mandate, mode of holding, nomination details, contact details, etc, will be as per the details stated in the demat account and not as per the application.

In case the user desires to redeem, the dematerialized units have to be converted into physical form (represented by statement of account issued by Quantum AMC) by submitting an application for Re-materialization of units to the Depository Participant, in such case application for redemption would be considered on the date when physical redemption slip is provided duly signed to Quantum AMC. As an alternative, redemption request can be placed through Depository Participants & Exchanges specified intermediaries where NSE MFSS/ BSE STAR platform is available for trading of Mutual Fund Units.

TERMS & CONDITIONS

- 1. Complete Common Application form and SIP ECS Mandate Form along with the first cheque should be submitted to the AMC / Karvy Collection Centers.
- New investors should mandatorily give a cheque for the first Installment. The first cheque should be drawn on the same bank account which is to be registered for ECS (Debit Clearing). Alternatively, the cheque may be drawn on any bank, for which investor should provide a photocopy of the cheque or cancelled cheque of the bank/ branch for which ECS is to be registered.
- 3. First SIP cheque and subsequent SIP installments via ECS should be of the same amount.
- 4. Employee Unique Identification Number (EUIN) Investor investing through Intermediary shall mandatorily mention the EUIN on the application form, irrespective whether he/she has been advised by Sales person / Employee/ Relationship manager of the Intermediary or not. However, in case of any exception cases, where there is no interaction by Sales person / Employee / Relationship manager of the intermediary with respect to the investment / transaction, the EUIN box may be left blank. If left blank, AMC will seek the following declaration separately from the investor, "I/We hereby confirm that the EUIN box has been intentionally left blank by me/us as this transaction is executed without any interaction or advice by the employee/relationship manager/sales person of the above distributor/sub broker or notwithstanding the advice of in-appropriateness, if any, provided by the employee/relationship manager/sales person of the listributor/sub broker." It is mandatory to obtain EUIN for every Sales person / Employee / Relationship manager of the Intermediary for dealing (irrespective whether transactions are in the nature of execution or advisory) in mutual fund products.
- 5. ECS instructions will take a minimum of 30 business days for registration with the bank and hence the first auto debit will be carried out only after one month, on the SIP date mentioned on the form. The AMC reserves the right to modify the SIP period depending on the one month period for registration to ensure minimum number of installments as mentioned in Scheme Information Document (SID)
- 6. ECS facility is offered only to

- Quantum AMC reserves the right to reject any application without assigning any reason thereof.
- 17. Please refer SID for minimum SIP investment amount under each schemes.

- Please refer the Key Information Memorandum (KIM) and SID of the respective scheme for applicable NAV, risk factors, load (exit/entry) and other information on the respective scheme before investing.
- 19. If Investor has not provided the SIP frequency or period, then the default SIP frequency will be monthly & the default SIP date would be 5th of every month. The SIP installment would be the minimum number of installments of the respective scheme as mentioned in the respective Scheme Information Document (SID). In case of Fortnightly SIP frequency, default date will be considered as 5th and 21st of the month.
- 20. Incorrect, incomplete or ambiguous forms will not be accepted and will be returned to the investor within 10 business days via normal post.
- 21. To avail of SIP in separate schemes/options via Direct Debit/ECS facility, an investor will have to fill a separate form for each scheme/ options. A single form cannot be used for different schemes simultaneously.
- 22. In case the SIP end date is not mentioned while submitting the application, the SIP mandate will be construed to be perpetual, till instruction to the contrary is received from the investor
- 23. For modification/change in SIP amount, New SIP Auto debit mandate form with revised SIP amount alongwith letter to discontinue the existing SIP amount to be submitted 30 business days prior to the Installment date.
- 24. If an investor gives a request for change in bank mandate of the same amount as that of the existing SIP amount in the same folio, the existing SIP will be discontinued and only the new SIP containing new bank details will be considered. But if an investor gives a request for change in bank mandate with different SIP amount both the new SIP as well as the existing SIP would continue.
- 25. In case of an investor who was a minor, the minor on attaining majority has to submit all the necessary documents and complete all the formalities as mentioned in the SID to start or renew a SIP/STP/SWP.
- 26. The allotment of units in case of SIP in Quantum Liquid Fund will be based on realization and utilization of funds only.
- 27. In case an investor gives full/partial redemption request in a folio where there is an on-going SIP, then redemption will be processed only for the units towards which the amount has been realized.
- 28. In case of weekly and fortnightly frequencies there are restrictions on the dates to be selected due to operational constraints

INSTRUCTIONS AND TERMS AND CONDITIONS

- This facility allows a unit holder to register multiple bank account details for all investments held in the specified folio (existing or new) Individuals/ HuF/ Sole Proprietor Firm can register upto 5 different bank accounts for a folio by using this form. Non-individuals can register upto 10 different bank accounts for a folio. Any more Bank account/s, even if mentioned or provided will not be registered unless accompanied by deletion request to delete any existing bank accounts.
- Unitholder(s) need to attach any one of the following mandatory documents in original, in respect of each bank account for registering the bank accounts, failing which the particular bank account will not be registered. This will help in verification and registration of the account details accurately.
 - a. Cancelled Cheque with first applicant name and account number pre-printed on the face of the cheque.
 - b. Bank Statement with current entries not older than 3 months.
 - c. Certified Bank Passbook with current entries not older than 3 months.
 - d. Bank Letter/Certificate duly signed by Bank Branch Manager/Authorized Personnel.

If photocopy of any document is submitted, the copy should be certified by the Bank Manager or self attested copy along with Original documents for verification.

Additionally the AMC may call for the below mentioned documents, wherever required on case to case basis:

Cancelled original cheque with first unit holder name and bank account number printed on the face of the cheque. OR

Original bank account statement / Pass book. OR

Original letter issued by the bank on the letterhead confirming the bank account holder with the account details, duly signed and stamped by the Branch Manager. OR

In case such bank account is already closed, a duly signed and stamped original letter from such bank on the letter head of bank, confirming the closure of said account.

All documents submitted should clearly evidence the bank name, account number and name of all account holders.

- 3. Bank account registration/deletion request will be accepted and processed only if all the details are correctly filled and the necessary documents are submitted. The request is liable to be rejected if any information is incomplete or incorrectly filled or if there is deficiency in the documents submitted.
- 4. The first/sole unit holder in the folio should be one of the holders of

the bank account being registered.

- 5. The investors can change the default bank account by submitting this form. In case multiple bank accounts are opted for registration as default bank account, the mutual fund retains the right to register any one of them as the default bank account.
- 6 A written confirmation of registration/addition/ change / deletion or inability to process the request will be dispatched to the unitholder within 10 business days of receipt of such request. The Account statement will reflect default bank mandate only and hence unitholder should preserve this letter for their reference.
- If any of the registered bank accounts are closed/ altered, please intimate the AMC by using the designated application form only.
- The Bank Account chosen as the primary/default bank account will be used for all Redemption payouts/ Dividend payouts. At anytime, investor can instruct the AMC to change the default bank account by choosing one of the additional accounts already registered with the AMC.
- 9. If request for redemption is received along with a change of bank account or before verification of the new bank account, the redemption request would be processed to the currently registered default (old) bank account. Consequent to introduction of "Multiple Bank Accounts Facility", the existing facility of redemption with change of bank mandate will not be applicable. A cooling-off period of 10 business days is required for registering the bank account and no redemption payouts will be made into such bank accounts during the cooling-off period.

Quantum Mutual Fund will not be responsible for sending redemption proceeds without considering unregistered bank account mentioned in the redemption request.

- 10. If an NRI in a folio, purchases investments vide SB or NRO bank account, the bank account types for redemption can be SB or NRO only. If the purchase investments are made vide NRE account(s), the bank accounts types for redemption can be SB/ NRO/ NRE.
- 11. The registered bank accounts will also be used to identify the pay-in proceeds. Hence, unit holder(s) are advised to register their various bank accounts in advance using this facility and ensure that payments for ongoing purchase transactions are from any of the registered bank accounts only, to avoid fraudulent transactions and potential rejections due to mismatch of pay-in bank details with the accounts registered in the folio.
- 12. Quantum Mutual Fund /AMC/ Trustee and its Registrar's shall not be held liable for any loss arising to the unit holder(s) due to the credit of redemption/ dividend proceeds into any other bank accounts registered in the folio.

NOMINATION DETAILS / INSTRUCTIONS

As per SEBI regulations, you can assign one or more nominee(s) to the investment, to whom the amounts will be payable on death of the sole or all Unitholders as the case may be. This form is to be filled if you wish to nominate multiple nominees. If you are filling this at the time of opening a new folio with Quantum Mutual Fund, please submit this along with the Common Application Form. You may also use this for nominating multiple nominees subsequent to opening a folio, or to modify existing nomination(s)

- a) The nomination can be made only by individuals applying for / holding units on their own behalf singly or jointly. Non-individuals including society, trust, body corporate, partnership firm, Karta of HUF cannot nominate.
- b) A Unitholder can have a maximum of 3 nominees.
- c) A minor can be nominated and in that event, the name, address and signature of the guardian of such minor nominee shall be provided. Nomination may also be in favour of the Central Government, State Government, local authority, any person designated by virtue of his office or a religious or charitable trust.
- d) The Nominee shall not be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of HUF or a PoA holder. A non-resident Indian can be a Nominee, subject to the exchange control regulations in force, which may change from time to time.
- e) Nomination in respect of the units stands rescinded upon the transfer/transmission of units. Transmission of units in favour of a Nominee shall be valid discharge by the AMC against the legal heir.
- f) A Non-Resident Indian can be a nominee subject to the exchange control regulations in force, from time to time.
- g) The cancellation of nomination can be made only by Unitholders on their own behalf, singly or jointly, and who have made the original nomination. On cancellation of the nomination, the nomination shall stand rescinded and the AMC shall be under no obligation to transfer the units in the Nominee's favour.
- h) If the unitholders have not indicated the percentage of allocation for each nominee, the AMC shall settle the claim proportionately amongst the nominees on equal basis. However incase of 3 Nominee(s), the allocation by default will be 34%, 33% & 33% respectively for each Nominee in the sequential order if the investor/s has/have failed to furnish the ratios.
- i) PoA Holders cannot execute a nomination request, it has to be executed by the Applicant(s)/Unitholder(s).
- i) Submission of fresh Nomination form if found in order will tantamount to cancellation of existing Nomination.
- k) Nominee is registered/modified/changed only at folio level and not at Scheme/Option/Facility level.

Why invest in Quantum Multi Asset Fund?

While **Quantum Multi Asset Fund** allows you to simplify your investment process by opting for a single diversified portfolio of equity, debt / money markets and gold, it also gives you the opportunity to invest through a **Systematic Investment Plan (SIP)**.

SIP is a risk mitigation strategy that helps you in averaging cost and reduce risk associated with lump sum investments. So whether the markets move up or down, you stay invested and reap the benefits of both worlds as it helps you buy more units when the NAV is down and fewer units when the NAV is up.

You can invest in **Quantum Multi Asset Fund** through SIP on a daily, weekly, fortnightly, monthly and quarterly basis and can make a purchase through both online and offline modes.
